

The Backshop Flyer, Train 1304, *Fresh from the Backshop and Ready For Service...*

This is a combined edition of our Newsletters that includes an exceptional list of new products, pre-orders and a couple of new DCC tips.

April finds us looking forward to some great spring weather and lots of rainy days to knock out a few modeling projects or maybe just a chance to run a new train.

Be sure to check out these great new products for model railroaders!

High Ball... *All greens to SBS4DCC.com.*

In the news this month...

Intermountain has announced a price increase

Here is a demo of the new TCS WOW-Sound decoders. The specs are still pretty fluid so we are waiting to know what the final configuration will be.

Looks pretty keen...

There is a recall on a specific series of [Soundtraxx GenSet](#) decoders. The affected models have a date code JM or JN. The problem was apparently

pretty obvious and you would know immediately that the sound file was junk.

I have contacted any of my customers who were potentially affected by this directly but be aware of the problem if you got one of these elsewhere. Soundtraxx is covering the replacement under warranty.

Zimo has announced the MX820 family of Accessory Decoders. New models include:

MX820E: for a switch (coils, motors, EPL drive) or signal (light, LEDs) to use in the same manner as the previous type MX82E

MX820D: how MX820E but sealed against water (resin and closed shrink tubing) to use in the same manner as the previous type MX82D

MX820V: for 2 points (drives as above) or signals to use in the same manner as the previous type MX82V

MX820X: how MX820E (ie 1-over), but also 8-light outputs (open collector, 100 mA) for signal lights

MX820Y: how MX820V (ie 2 points), but an additional 16 light outputs (open collector, 100 mA) for signal lights

MX820Z: without regular outputs, "only" 16 light outputs (open collector) for signal lights

Zimo has also announce the MX634 family of locomotive decoders to replace the MX631 line.

MX634: 11 wires and solder pads for more Fu's

MX634R: NEM652 (8-pin connector) to strands
MX634F: NEM651 (6-pin connector) to strands
MX634D type: MTC-21
MX634C: MTC-21 with FA3, FA4 as logic level outputs

Common features for all MX634 types includes:

- + DCC RailCom, DC analog, MM, AC analog
- Dimensions: 20.5 x 15.5 x 3.5 mm
- 1.2 A motor and total flow
- 6 function outputs (Lv, Lr, FA1 ... FA4)
- 2 servo control lines or SUSI
- Connection for external energy storage (capacitor 25 V, up to 10000 uF)
- Of course, with all the known properties regarding ZIMO update capability, safety, engine management and control system, functions, train control and feedback.

We will be adding these models to the store in the coming weeks. Drop me a line if you want to get one headed your way.

News from the Backshop...

New product lines added recently include:

The [Peco Track](#) catalog in several scales including N, HO, HOn3, O, On30 and G. These are still catalog items but I will work on adding stock for quick shipping as quickly as I can.

The [Woodland Scenics](#) catalog. I will be adding stock on this line as quickly as I can.

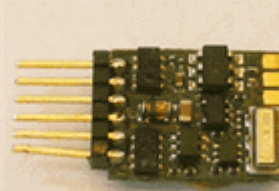

I have also added a number of offerings from [MTH – Mikes Train House](#) and [American Limited Models](#).

Now Arriving, Track 1...

The units will surely be in high demand so get you order in early.

And don't forget SBS4DCC is offering a special-order [N Scale NS Heritage Set](#) that contains all twenty of the [Fox Valley Models ES44AC "GEVO"](#) and [Kato SD70ACe "Heritage"](#) units. That's right. All **20 units** in one set, available with or without DCC. Wow! *That's cool!*

Additional New & Pre-Orders Models include...

Here are the new pre-orders for April. Be sure to check them out.

Backshop DCC Tip Of The Month...

I am taking a mulligan again this month on the "How To" series since I have spent so much time revising the site in the first quarter and so little time on the bench. This month is going to be another "drop-in" type tip...

Soundtraxx has added Application Notes for these models

[N Kato E8A](#)

[N InterMountain AC12 4-8-8-2](#)

[HO Athearn GP38-2](#)

[HO Atlas GenSet](#)

[Application Notes](#) for additional models can be found by drilling down into the Decoder Selector to the links for specific loco models.

SBS4DCC Varnish Lighting...

I continue to receive lots of positive feedback regarding the [Z, N and HO Scale Passenger Car Lighting Boards](#). I hope you will give them a try on your next car lighting project.

Also be sure to check the [Z, N and HO Scale Passenger Car Lighting Additional Board Connection Diagrams](#) and [Z, N and HO Scale Passenger Car Lighting Additional Application Notes](#) pages for additional information.
