

The Backshop Flyer, Section 1308, *Fresh from the Backshop and Ready For Service...*

This is a combined edition of our Newsletters that includes an exceptional list of new products, pre-orders and a couple of new DCC tips.

Summer is in full swing. I hope you have enjoyed the warm sunshine, a picnic, and old fashioned ice cream cone. I also hope you have had taken some time to enjoy the World's Greatest Hobby too! I missed the July edition as I have been busy relocating family and business. That is mostly done now and my head is down again and the iron is hot.

Be sure to check out all of our great products for model railroaders and treat yourself to new train today!

Special Announcement...

The move is done and the dust has settled. I am working hard in the shop again on orders and installations.

My new contact info will be:

Bryan Vianco
Streamlined Backshop
7229 Euliss Court
Avon, IN 46123
317-201-4974

As always, thank you for your support, your patronage, and your patience during this time and as we move forward!

High Ball... *All greens to SBS4DCC.com.*

In the news this month...

Blackstone Models is excited to announce the production of D&RGW K-28 and K-36 Class Locomotives projected in 2014. There will be more details to follow in the coming weeks regarding part numbers, pricing, etc.

Blackstone has also announced that the new run of [C-19 2-8-0's](#) and first pieces of the [HOn3 ProTraxx Snap-Track System](#) are now shipping. I should have the ProTraxx in stock next week.

Micro-Trains has announced an exciting new model, the SW1500.

The EMD SW1500 was General Motors upgrade of the successful SW1200 and provided its customers with a larger, more powerful switcher for their yard services. Powered by the EMD 645 Diesel Electric engine, the SW1500 found a home on most major class 1 railroads and went on to work on short lines and industrial customers. A total of 808 units were produced between 1967 and 1968 and operated on lines from Canada and Mexico.

The N scale model will come with separate handrails, bell and horns, window inserts, operating headlight, body mounted Magne-Matic® couplers and fine surface detail. Initial releases will be equipped with AAR style trucks and decorated in the accurate prototypical paint schemes. Accepting Orders for August Releases Beginning July 31st. Pricing and Pre-Order Window Coming Soon.

Kato has announced a new analog based sound system coming to the US Market! The Analog Sound Box (working title) will be a self-contained analog sound system (no DCC or decoder installations required) which will be plug-and-play with Kato's Unitrack system. Using multiple "sound containers" modelers will be able to select their preferred sound schemes and enjoy loud, clear sounds coming from their control stands with a variety of toggle-able sound features.

You can watch a video preview of this new analog sound box (first debuted at the NMRA convention in Atlanta) on our youtube channel here: <https://www.youtube.com/watch?v=D2pXndpVTe4>

This sample is an extremely early prototype and some details and features may be changed or added - once it's ready for announcement they will open pre-orders and provide more details, but until then enjoy the video!

Kato has also announced several new track sections for the US Market including:

[SBS4DCC - Stock Status Information](#)

Just a reminder that SBS4DCC.com for real-time inventory tracking. If it says it is in stock... it IS... I try to maintain a strong selection of DCC and Model Railroad products and try not to hide what I do not stock yet. I appreciate the opportunity to provide catalog items when you can wait a few extra days as this make a huge difference in my ability to grow and expand my selection.

Our latest shipment of Zimo stock is on the way and includes a MXULFA as well as 8x12 and 11x15 Cube speakers. We had a big run on the cubes in May the depleted our stock. Thanks for the many orders. The cubes get my vote for product of the year. I hope you agree. Keep an eye out for a few new sizes too!

Now Boarding... Pre-Orders for July and August.

Be sure to take advantage of our no-obligation Pre-Order Special featuring \$1 domestic shipping. No deposit is required and payment is not due until the units are in stock.

Backshop DCC Tip Of The Month...

I am taking a mulligan again this month on the "How To" series. I will get back on that when time allows. This month is going to be another "drop-in" type tip...

ESU has released v4.4.5 of the LokProgrammer software. Of particular interest is an update to the Write Sound Data process that simplifies the two step process I discussed in the last edition.

The new function is a one step process and insures the default CV values get updated.

SBS4DCC Varnish Lighting...

I continue to receive lots of positive feedback regarding the [Z, N and HO Scale Passenger Car Lighting Boards](#). I hope you will give them a try on your next car lighting project.

Also be sure to check the [Z, N and HO Scale Passenger Car Lighting Additional Board Connection Diagrams](#) and [Z, N and HO Scale Passenger Car Lighting Additional Application Notes](#) pages for additional information.
